

All of the energy available to our bodies comes from the sun, and is stored in the foods we eat.

In addition to the traditional children's menu items that we continue to offer, our chef has prepared a special menu featuring healthy choices for kids. These selections feature playful presentation, fresh, local ingredients wherever possible - and they taste delicious.

If there are foods that your children may not yet have enjoyed at home - remember that a vacation provides a break from the daily routine. The Sun Power Kids Menu provides the perfect opportunity for children to try new dishes, or to enjoy healthy foods that you have provided at home, but have trouble finding on the road.

SunPower Kids menu is a hallmark of the KSL Resorts collection, so you will enjoy healthy children's options at our other resorts.

## Discover Kidtopia A Club for Kids

Carved into the earth awaits a new world of adventure, where land and sea unite to bring excitement, imagination, and fun to children.

# Children's Menu

10/08
